Mathematics Tutoring

Mathematics tutoring at Noosa Tutoring Centre caters for both primary and secondary school students.

The Learning Centre's qualified mathematics tutors understand that when it comes to mathematics, as well as other subjects, the rate of learning is different for every student. We cater for children struggling to keep pace with their peers, as well as those requiring extension.

- Tutoring for Primary students is concentrated on making math practical and hands on. Fundamental numeracy skills are developed, before student's progress to more complex math problems. By having the time and devotion of a math tutor, students are able to learn at their own pace.
- Secondary and Senior School students are offered one on one tutoring sessions in mathematics at all levels of High School including the senior courses; Math A, B and C. All of our math tuition is curriculum based. Experienced math tutors focus on exam preparation with practice papers as well as exam strategies.
- Noosa Tutoring Centre staff believe that preparing students thoroughly for exams helps them build confidence in themselves and their abilities. This reduces exam stress and encourages success.
- Noosa Tutoring Centre also helps students with preparing for NAPLAN and scholarship exams.

All math tutors are up to date with the curriculum and are experienced teachers.

Noosa Tutoring Centre one on one math tutoring equips students with the skills and knowledge they need to build their confidence in math and excel at school.

So whatever level your child is at in math Remedial to gifted, our dedicated math tutors are here to help every child succeed in math.
